

*Understanding  
the application*

**B** BitLipa

**Transact privately**  
for free across the globe

## What is **BitLipa**?

***BitLipa** is a mobile application allowing you to transact privately and for free across the globe.*

The application enables users to settle payments and send and receive fiat and crypto instantly across borders free of charge.

Users can also withdraw cash through our peer to peer agency network.

The exchange feature allows users to exchange crypto for fiat and fiat for crypto.

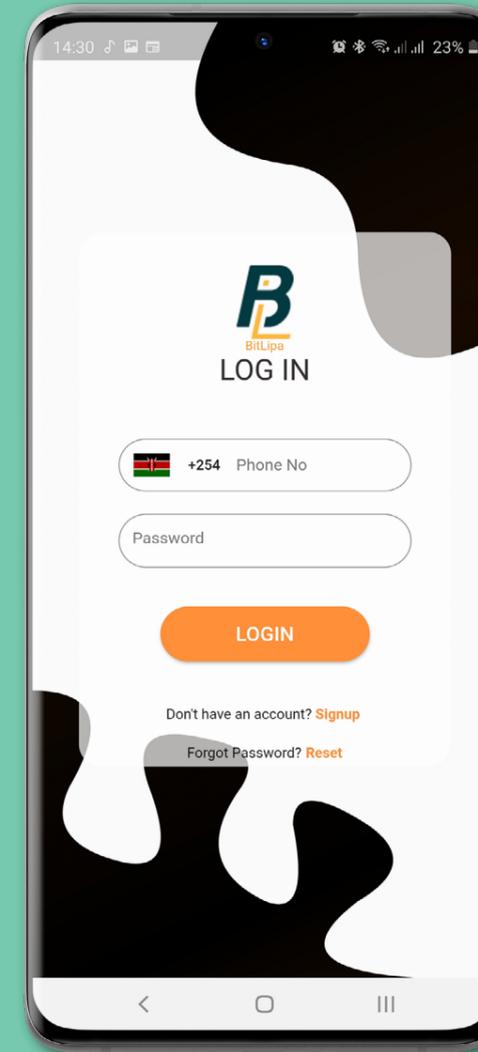

## Why BitLipa?

- ▶ Very secure and private.
- ▶ Protects customer's identity and data.
- ▶ No transaction charges.
- ▶ Enables users to make/accept payments in crypto.
- ▶ Enables users to exchange fiat for crypto and vice versa in real time.
- ▶ Ease of making cross border payments and transactions.
- ▶ Takes businesses international instantly.
- ▶ Our many features eradicate the need to have many apps on your gadget.
- ▶ Eases the process of acquiring/liquidating assets.
- ▶ Enables users to use their assets in the real World.
- ▶ Promotes a cashless economy especially in Africa.
- ▶ Eliminates the risk of being scammed when trying to acquire or liquidate your crypto.

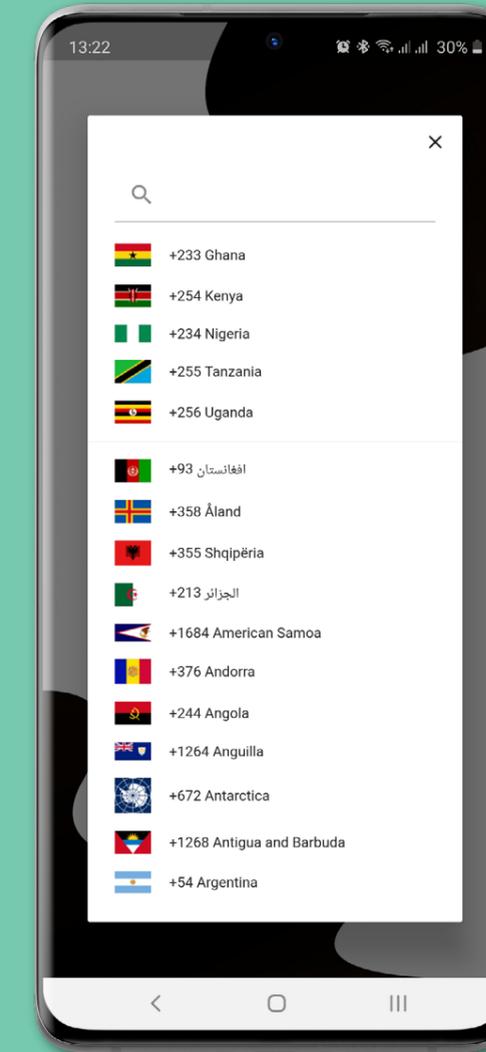

**BitLipa** redefines  
financial freedom!
